ENROLLMENT OF COLLEGE IS AT HIGH MARK NOW

PROSPECTS FOR SUMMER TERM IS VERY BRIGHT.

President Hill and Faculty Highly Pleased; Preparing College Catalogue at Present.

Enrollment at the West Texas State Teachers College continued this week and figures available Wednesday, when it was thought that all enrollment had been completed, gave the number enrolled in all departments of the college including the nigh school and training school, as 1273.

This number reached a mark not seen here in a number of years for the summer session.

Members of the college faculty are highly pleased with the prospects for the summer. President J. A. Hill stated this week that the enrollment was beyond expectations, under existing conditions, and that the college was comfortably filled. He declared that all prospects pointed to the most successful short session in the history of the college. Practically all of the classes are well filled.

Work is well under way toward the publication of the annual college catalogue for the long session of 1931-32. Practically all material is now in the hands of the printers and it is expected that a number of the catalogues will be ready to be mailed out within the next few weeks. These will be sent to prospective students.

The enrollment yesterday in the college numbered 1085; in the high school 82, and in the training school 106. This is considerably above the figure of last year.

The deceased had lived at Tulia and Amarillo as well as in Randall County.

Bellah Food Store Formal Opening Drew Large Crowds

Described as the "biggest day in the history of the store," the new and remodeled Bellah Food Store, formerly the Bellah Grocery, staged their formal opening last Friday and Saturday. Exceedingly large crowds wended their way through the store to take advantage of the many bargains offered.

Several special prizes were awarded. O. G. Steen won a $5 basket of groceries given away at 2:30 o'clock Saturday afternoon. Mrs. W. T. Dungan was given a 48-pound sack of flour for her guess of the number of grains of corn a rooster would eat in two days. She guessed 600 and the rooster ate 594 grains. Mrs. O. N. Gamble won second prize, a 20-pound sack of meal.

Rev. J. R. Sharp Moves to Canyon

Rev. John R. Sharp has resigned as pastor of the Dalhart Presbyterian Church and has moved to Canyon to make his future home. Mr. Sharp has served as pastor in both Hereford and Tulia before going to Dalhart where he has been pastor for the past seven years.

Rev. Sharp decided several years ago that some day he would move to Canyon to make his home when he decided to retire from the active ministry. He selected Canyon on account of the educational facilities and the high ideals of the citizenship.

TOO MANY DOGS, BICYCLES AND MOTORCYCLES—PIPKIN

Uncle Jack Pipkin has three complaints to register about conditions in Canyon just now:

1. Too many dogs running at large.
2. Too many boys and girls riding bicycles on the sidewalks.
3. Too many motorcycles exceeding the speed limits and driving recklessly through the city.

City ordinances cover all of these points, and Mr. Pipkin believes that al of these ordinances are being violated, and hopes that the citizens will help the officers in strict observance of the city's laws.

Dr. Frank Darnell Arrives This Week From Fort Worth

Dr. Frank M. Darnall, Ph. D., arrived in Canyon early this week to take up his work as a member of the College faculty and to become head of the English department.

Dr. Darnall comes to Canyon from Fort Worth, where he has been head of the English department of the Texas Woman's College for the past 2 years. Before that he had taught at the University of Tennessee, Mississippi A. & M. and the Southwestern University.

He did his graduate work in the University of Leipzig in Germany. His undergraduate study was at the University of Tennessee. Besides his work as instructor he has done extensive lecturing and writing of special magazine articles.

His daughter, Miss Margaret Darnall will join him here and plans to enter the college as a freshman. He has a son who is in Yale at this time studying toward a degree in law.

Dr. Darnall states that he is well pleased with Canyon and the College.

Canyon Officials Of M. E. Assembly Are Re-elected

When the annual assembly of the Young Peoples Division of the Methodist Church was brought to a close Friday night at McMurray College, Abilene, Virgil Gore of Canyon was re-elected director of the division and Miss Shirley Shook of this city was re-elected recording secretary.

Other officers elected were: Vance Swinburn, Dodsonville, re-elected president; Thelma Bradshaw, re-elected treasurer; Edith Day, Amarillo, vice president, and Robert Curry, Crosbyton, publicity superintendent.

At the meeting this year the assembly ratified the new constitution whereby the Epworth League and the Sunday school of the Methodist Church operate under a more unified plan than in the past. This new plan will prevent duplication of work done by the league and Sunday school and enable both to accomplish more work by carrying out their ideas together instead of working under separate organizations as in the past.

It was decided to hold the assembly in Abilene again next year though a definite date was not set. Those attending the meeting from Canyon were Miss Mattie Swisher, Miss Shirley Shook, Alfred Jameson, Rev. J. P. Patterson, Joe Patterson and Virgil Gore.

Both Mr. and Mrs. Holmes sank rapidly last week, Mrs. Holmes passing away Thursday and was followed in a few hours by her husband. A double funeral was held at the family home.

Miss Holmes has not returned to the city ot continue her work as teacher of home economics in the College.

NEW TYPE OF CLUB PLANNED FOR STUDENTS

PLAN ORGANIZATION OF NEW HIKING CLUB HERE.

Plan to Gain National Connection For Club to Be Sponsored By Teachers.

A new type of club is to be organized at the college within a few days, S. H. Condron announces. This club will be known as an outing or hiking club and the purpose of it will be to make regular hiking trips into the country once every week. Should inclement weather prevent the group to make an outdoor trip, a luncheon will be held and some speaker will address them on a subject dealing with outdoor life.

Mr. Condron states that no limit will be set on the membership and that anyone who cares to join will be eligible to do so. Assisting in the organization of the club will be Prof. Albert Barnett and Miss Ruth Cross. They plan to help popularize the Palo Duro Canyons by making frequent outing trips to several sections of the canyons.

In a number of other sections of the Western United States, outing clubs have been active for a number of years and it is planned to obtain national affiliation for the local club when it is organized.

It is probable that a meeting will be held next Monday afternoon at the college, at which time the organization of the club will be perfected.

Miss Irene Angel Burned Badly in Fire Wednesday

Fire, resulting in damage estimated to amount to probably a hundred dollars, to the kitchen of the Mrs. L. Angel home at 1301 Third Avenue and severely burning Miss Irene Angel, was caused by clothing soaked in gasoline becoming ignited about 9 o'clock Wednesday morning.

Miss Angel had been washing some clothing in gasoline outside the house and had just caried them to the kitchen where she intended to soak them in water. When the warm water was poured over the clothes they were ignited.

The fire was held in check and confined to the kitchen as Miss Angel threw a small rug over the burning clothing and closed the door of the room until the fire department arrived on the scene.

In attempting to check the flames, Miss Angel received numerous burns about the face, hands, arms and feet. Late Wednesday she was reported to be resting wall although she had suffered severe pain for a while as a result of the burns.

Damage to the house by the fire was completely covered by insurance.

Associated Press Man Likes Canyon

"Canyon has a wonderful future, and will be a town of 10,000 population before many years," stated Charles A. Pierce, representing the Dallas office of The Associated Press. Mr. Pierce was here Tuesday, making a survey of this territory for his company.

"I confidently expect to see Amarillo grow to be one of the largest cities in the state," said Mr. Pierce, "and Canyon will benefit as a result. When Amarillo begins to draw large industries, many of them will seek locations in the smaller towns, and Canyon should get some of these industries. You have a beautiful, clean town here, and with the educational facilities, Canyon is certain to be a fine town and will grow continually."

Misses Opal and Vida Cox of Pampa are attending W. T. here this summer.

HARVEST OF 1931 WHEAT CROP IS HELD UP BY RAIN

HARVEST OF CROP IS LATER THAN LAST YEAR.

Not Expected to Get Well Under Way Before the Latter Part Of This Month.

Recent rains in this section have halted the ripening of the grain crops almost completely and have caused a set-back in the beginning of the 1931 harvest, farmers and grain men declare.

The first load of wheat in 1930 to be sold in Canyon was harvested on June 11. It is the general belief that it will be fully 10 days later this year than last and some do not believe the 1931 grain harvest will be well under way until about the first of July.

It is expected that a small field of barley on the J. M. Craig farm will be harvested the latter part of this week.

In reply to a query from the News, the Felix Neff Elevator Company does not believe that the grain harvest will be well under way until possibly after July 1. The Canyon Grain and Elevator company is of the opinion that it will be after June 22 before any wheat in this county will be harvested. At least not in very large quantities before that time.

Weather during the past few weeks has been very favorable to the wheat and small grain crops in the county, farmers state. In practically all sections enough moisture has fallen to be of great benefit.

Plan Outing at Park for College Students Monday

Under the direction of L. N. George, secretary of the Chamber of Commerce, a picnic has been planned for the College students to be given at the Palo Duro Park on Monday, June 15. The picnic will be in the form of a weiner roast and will begin about 5 o'clock in the afternoon.

The picnic will be open for all members of the student body for the summer term. All Canyon merchants and members of the Chamber of Commerce are urged to join the outing and assist in entertaining the students, Mr. George announces.

He states that a number of cars will be needed for transportation of the students from the college campus to the park and has requested that those who have cars to spare and will go and take a group to the park, to please get in touch with him at the college.

Jimmie Gamewell Won the Invitation Golf Meet, Dalhart

Jimmie Gamewell, son of Mr. and Mrs. W. I. Gamewell, won the annual invitation golf meet at the Dalhart Country Club Monday afternoon when he defeated Buren Reynolds, of Dalhart on the 18th hole of the course.

Young Gamewell's playing was declared to border on the sensational as he breezed through the tournament to win the honors, when the playing offered the stiffest competition of any like tournament held in the Panhandle city.

Jimmie, who moved here with his parents from Dallas about a year ago, has been burning up the local courses, with his sensational playing for one as young as he. He holds high rank among the members of the Canyon City Club golf team.

His friends here have hailed the success of his playing in Dalhart with great delight. Eighty-one participated in the tournament at Dalhart.

Paint Company to Conduct Tests on College Farm

An Industrial Research Grant, which is given along the lines of a scholarship, has been given to the Chemistry Department of the West Texas State Teachers College, by the DuPont Company.

This company is conducting a paint experiment on the College Farm for the purpose of determining what types of paint and what types of wood are best adapted to the Panhandle and Plains country. In conducting these tests, a student from the chemistry department is appointed to look after these tests and make regular reports to the company headquarters in Philadelphia, as well as, send in samples of the experiments from time to time.

Dr. C. A. Pierle, has announced that James Kennedy has been selected to care for the experiment of the DuPont Company and will receive the funds from the Research Grant, which will amount to about as much as a scholarship fund, or practically enough to carry a student through school for a year.

EXPECT GOV. TO GIVE ATTENTION TO BILLS SOON

GENERAL APPROPRIATIONS ARE DUE BY FRIDAY NIGHT.

Much Discussion as to What Gov. Sterling Will Do With Bills; Some Urge Extra Session.

The general appropriations bills for the institutions, departments, and schools of the state have not yet been acted upon by Governor R. S. Sterling. He has until Friday night of this week in which to act upon the bills. It was feared for some time that the Governor would veto all of the bills and return them to a special session of the legislature to be acted upon again, but indications now are that he will veto a sufficient number of items to bring the totals within the available revenues of the state, and sign the bills sometime Friday.

The Governor has indicated that he will veto all buildings in the bills. Strong pressure has been brought to bear that he leave the $25,000.00 item for the Panhandle-Plains Historical Society Museum, which amount will be matched by a like amount to be raised by the citizens of this section. Word from Austin indicates that the Governor may allow this one building to remain in the education bill.

Other rumors are that he will veto all new positions, and eliminate many other items, including the appropriation for the summer summer schools for 1933. Strong appeals have been made this week to retain the summer schools, although the legislature will meet in January, 1933, in regular session and can provide for this item.

Those interested in the appropriations bills are anxiously awaiting the action of the Governor on the bills.

The question of a special session to meet about June 22nd is being considered in Austin today. A large delegation of oil men are with the Governor seeking to find a way to solve the East Texas oil situation.

Miss Throckmorton Will Edit College Yearbook for 1932

Miss Florence Throckmorton, of Pampa, and a junior in the College has been named as editor-in-chief of the college yearbook, "Le Mirage." Miss Throckmorton has been a student of the local institution for the past four years, completing her high school work in the West Texas High School. For the past year she has served as assistant editor of the yearbook.

She has announced that the art work of the yearbook for 1932 will be mainly the beautiful scenes of the Palo Duro Canyons. Interwoven into the beautiful scenes will be an historical sketch of the legend concerning the invasion of Coronado and the purported buried treasure near the Lighthouse.

Miss Throckmorton has made a trip to Fort Worth to confer with the engravers concerning plans for the next year's annual.

Peter Molyneaux in the Texas Weekly points out the fact that the present tax situation may be solved if the automatic tax board will do its duty which the law prescribes. He is absolutely right. The present deficiency in the state treasury was brought about very largely from the fact that Dan Moody refused to meet the expenses of the state government. He influenced the rate to be set at 27 cents when the experts were convinced that it would take a 31 cents tax rate to meet the appropriations which Dan Moody had approved. Thus the $4,500,000 supposed deficit on the first of September this year. The Ferguson administration left Moody a deficit of $3,000,000 and he put in four years howling about the injustice done his administration; yet he in turn left the Sterling administration a deficit of one and one-half larger than he had inherited. Mr. Molyneaux is right. Let the automatic tax board do its duty, instead of playing politics and these large deficits at the end of different administrations will be wiped out.

A good suggestion was made this week to keep down the fly population in Canyon during the summer. Grocers and markets who handle vegetables and meats very often throw the scraps into the alleys, without care as to whether or not they are burned. If the business houses will see to it that all refuse which causes fly breeding places is burned, or placed in closed containers that the city may haul it away, the number of flies will be materially reduced during the summer. Housekeepers could greatly assist in observing the same rule.

The oil men of the Panhandle are practically unanimous in their belief that a special session of the legislature could help the oil industry in its present deplorable condition. What the oil men are really afraid of is the power of the major companies to completely crush the independents if proration should become the law of the state, and some board of department were given the powers now being sought. The independents admit that development should take place in an orderly manner—that the producers should agree to some kind of method to curb the unrestrained development of East Texas while the price is so low. They believe that the majors are filling up all available storage with very cheap oil, which will be turned into high priced products at the proper time, and therefore no one will benefit from the present overproduction. The independent oil men have always had a fight on their hands with the majors. It is just the same with the independent merchant with the big chain store; and the independent farmer who is curbed in his profits by the board of trade. The independent is the underdog, no matter in what field you may find him.

Judge L. S. Kinder of Plainview is dead. Another victim of a parked truck at night on the highway without lights. Several Canyon people have suffered from accidents resulting from such practices, and will carry to their graves scars caused by car accidents because the trucks did not have tail lights. Truck men complain that the recent session of the legislature passed drastic legislation on this subject. Those who are trying to do the right thing are to be pitied that they must be punished by severe laws which are made for those who have no respect for the other fellow's rights. Judge Kinder is a type of man that the Panhandle country can ill afford to lose. That is too heavy a tribute to be paid to the carelessness of those who abuse the privilege of using the highways.

It is said that the federal indictments against Al Capone virtually means the end of racketeering in Chicago. At last the good people of that city have decided to put an end to lawlessness and crime, so says the report. This is true not only of Chicago, but of every other town. Most of us will cuss the officers of the law for not putting a stop to crime, and then turn our backs upon the officers when they need help, and we are in position to aid them. Not many citizens will go to the trouble, or expose themselves to the light of publicity in order to assist officers enforce the law, but nearly everyone is willing to cast brickbats in the direction of the peace officers when they are unable to apprehend the criminal.

Perhaps no characteristic of a public man in American history has been so much talked about as the silence of Calvin Coolidge He kept his mouth shut while others talked. Today he is reaping the harvest of his silence by being paid a fabulous sum of money for daily articles in the newspapers. If he had talked more while President, perhaps his articles, brief and to the point, would not be so highly prized. A fine lesson to all of us: don't talk unless you have something to say, and then make it brief.

Congratulations to Dr. Joe Hill, LL. D. Dr. Hill has been one of the outstanding educators in Texas for many years, and the conferring of the LL. D. degree upon him by Simmons University is a signal honor in recognition of the effective labors of an eminent educator.

Amarillo has settled the gas fight which has been waged for several months by definitely accepting the offer of 27 cents made by the gas company. The city will not install a separate distributing system, nor will any attempt be made to buy the plant of the company. This is the most equitable settlement which could be made. Now that the same company which sells gas in Amarillo at 27 cents is furnishing Canyon and other South Plains towns gas at 67 cents, the agitation will be continued for cheaper gas on the South Plains.

Governor Sterling has written his first veto messages. He approved all bills which were acted upon while the legislature was in session. He regretted very much to veto the $300,000 appropriation to repay West Texas farmers for the money they were out in meeting the provisions of the pink poll worm quarantine, but the Senate increased the amount to $1,000,000 for the purpose of paying East Texas tick expenses, and just to kill the measure, East Texas members of the House voted to accept the amendment.

PRAISE FOR HILL

Pampa Morning Post: Simmons University of Abilene has honored President J. A. Hill of Canyon Teachers College with the presentation of a doctor of laws degree. This was one of the most logical presentations that Simmons could have made. Dr. Hill has rendered brilliant service to education and to West Texas since he was selected on the original faculty of the Canyon institution in 1910.

Dr. Hill is a real teacher, an author of textbooks in history, a speaker of talent, an authority on educational methods and standards, and a citizen of broad and liberal interests. No other man of our knowledge has more sincerely and more energetically strived to render lasting service to his state and to his constituents. Those who have watched his untiring good citizenship will congratulate Simmons for having recognized true merit.

The Panhandle in general too little recognizes the worth of the Canyon institution. It is the Panhandle's own state school—the symbol of taxes coming back home. It should be more widely used by parents intent on making useful citizens out of their children. It is located in a quiet little city of good surroundings and a high type of residents.

Students who go to Canyon need have no fear as to the scholastic status of the school. The credits are accepted at par in the universities. The writer has heard university professors say that Canyon Teachers College graduates showed better preparation than graduates of many of the smaller universities. All over Texas are teachers college graduates who are making good. The expense of going to distant schools is unnecessary. Moreover, in addition to offering courses in teaching, the college affords opportunity for general education, leading through the masters degree.

An optimist is one who believes the radio programs will be better some day.

Merit-Fed Flocks WIN AGAIN!

NICOMA PARK, near Oklahoma City, is the largest poultry colony east of the Rockies—and in the egg laying contest of 1930, lasting eleven months, MERIT-fed flocks won the *first five places*, and seven out of the first ten prizes! Furthermore, MERIT POULTRY FEEDS were adjudged FIVE PER CENT BETTER THAN THE NEXT BEST IN THE CONTEST, figured on a cost per dozen eggs basis. And only thirteen flocks—out of the forty-three flocks totaling 35,527 fowls entered in the contest—were MERIT-fed!

MERIT-fed flocks were the outstanding winners because MERIT EGG MASH is an outstanding ration. Its formula keeps the three egg-making organs of the hen working full time, and provides the essential nutrients in exact proportions to develop a good yolk, white and shell. Protein is not less than 18%; fat is not less than 3½%; NFE, not less than 50%; and crude fibre, not more than 7%. To increase your egg profits . . . test out MERIT!

Miss Stella Rusk Becomes Bride of William Edwin Young, June 3, at Pasedena, Calif.

In a very beautiful and effective ceremony Miss Stella Rusk of Canyon became the bride of Mr. William Edwin Young of Los Angeles at 11 o'clock Wednesday morning, June 3, at the Church of the Angeles, Pasadena, Calif. The Rev. Henry C. Parke of that city performed the ceremony.

The bride entered on the arm of Mr. Young to the strains of Mendelsohn's Wedding March. She was given in marriage by her aunt, Mrs. John F. Rogers of Los Angeles. She wore a pearl gray suit and a blue blouse with gray accessories and carried a bouquet of sweetheart roses and lilies of the valley. The church was beautifully decorated in Easter lilies and tall white tapers.

OVER 1,000 VISIT PARK

According to the registration book at the Palo Duro Park, 242 cars bearing 1,027 people passed through the gates Sunday. A small percentage of the visitors were tourists.

The attendance at the park exceeds any day's attendance of the Carlsbad Caverns, according to records released by the government. The peak day of last month at Carlsbad was 600, when a special delegation of high school students and the governor of the state visited the cave. The fact that the park is drawing larger crowds at the present time than the cave might indicate that the canyons are becoming very popular, local people declare.

B. Elliston, 2106 Sixth Avenue. The Rev. Mr. H. A. Shaw of the First Christian Church of Amarillo, read the impressive double ring service in the presence of relatives and a few intimate friends.

NEW TEACHERS ARE ADDED TO COLLEGE FACULTY FOR SUMMER TO TAKE PLACES OF ABSENTEES

Green, Jennings, and Walker Return to Posts After One Year's Absence on Leave Doing Work of Various Kinds

With the opening of the summer session, three new teachers have been added to the college faculty, to take the places of some who have been given leaves of absence, and three former teachers have returned from recent leaves to again take up their work in W. T.

Dr. Lawrence F. Hill, regularly associate professor of history at the University of Ohio at Columbus, will be a member of the history department here. He will probably be here only the first six weeks. He will take charge of the graduate work in that department for the time he is here, and will also teach undergraduate courses, says President Hill. Dr. Lawrence Hill is an ex-student of W. T., having done work in this institution during the years before it was made into a senior college. At one time he was superintendent of schools at Lockney, Texas.

Taking the place of Miss Cleo Holmes, who was recently called away by the sudden death of both her father and mother, and who will be absent at least until the end of the first six weeks, Miss Agnes Nelson also comes to the college as a new faculty member. Her work will be entirely in the home economics department.

C. Wedgeworth, who is to be a member of the education department for the summer, is superintendent of schools at Snyder. He comes to W. T. to help handle the unusually large enrollment in that department caused by the influx of teachers taking summer work, and those doing graduate work.

Three people who are well-known former members, Mrs. Geraldine Green, dean of women; Hershel Jennings, of the commerce department; and Darthula Walker, head of the geography department, have all returned to their positions in W. T. with the opening of the summer school.

Mrs. Green has been absent the past year doing work at Columbia University. While she was away, her duties were performed by Edna Graham, regularly a member of the mathematics department.

Hershel Jennings has been working toward his M. A. degree at Greeley, Colorado.

Darthula Walker spent the last six months with the famous Floating University as a member of its geography faculty on its Fifth annual around-the-world cruise.

PROTECT YOUR POULTRY

Undoubtedly you realize the advantages of a modern up-to-date Poultry house. Perhaps, however, you have been hesitant about building a new one because of the cost. Have you any idea how easily, quickly and cheaply you can remodel your present one and make it practically as good as new? Old structures can be made handsome, neat and efficient at a surprisingly low cost. When you build a new poultry house or remodel the old one see that only the best materials are used. A modern, well-built poultry house will pay big dividends for years to come.

THAT'S the time you should feel like whistling and singing. Your muscles should itch to tackle the day's work. Your mind should quickly solve the problem that baffled you the afternoon before. Student of First Year Visits W. T. Campus Recently

On one day of the recent commencement week activities, the W. T. campus was visited by a woman who was a student here in the year 1, 1910, of the college, and who helped plant the walnut trees which are still to be seen west of the building, Mrs. Margaret Turner Whetstone, now of Marlin, Texas.

Mrs. Whetstone, at that time Miss Turner, attended classes in the first building erected on the grounds of the institution. She was classified as a junior then, and, due to the fact that in those days only three years of work were offered, she left W. T. the next year.

At the planting of the walnut trees on the campus, which were planted by the faculty, the freshman class, the sophomore class, and the junior class, Miss Turner had the privilege of planting with her own hands the one for the juniors. There are now only three of those four trees standing, the faculty tree having died some years ago.

Her visit to the campus during commencement week, was Mrs. Whetstone's first return to her former Alma Mater. She found here only five of the faculty members who were here when she was a student in the old halls, one of them being President Hill, who was at that time teaching history, and in whose class she was. One other student who was here at that early date she also found here now. L. N. George, secretary of the Ex-Students' Association whose office is in the college.

Since her departure from W. T., Mrs. Whetstone has been occupied in several fields of activity, having kept house several years, gone to school, and taught. She has been teaching recently, but is planning to stop in favor of a business career. She received her B. A. degree from the North Texas State Teachers College at Denton in 1929.

Twelve Teachers Given Leaves of Absence from W. T.

Twelve of the teachers who were here during the past long session have been granted leaves of absence of various lengths, according to Prseident Hill. Some will use the time in study toward more advanced degrees, while a few will spend it resting, he says.

Those who will be absent from now until Sept. 1 are Helen White Moore, of the demonstration school faculty; Ada V. Clark, of the music department; T. M. Clark teacher of German and French; Bessie C. Engle, of the geography department; Marian Normington, head of the department of home economics; John A. Gillis, of the manual training department.

Isabel Robinson, head of the art department, and S. H. Condron, head of the government department, will be gone during the last six weeks, to return to work in September.

Two of the faculty have been granted leaves which will last from this June 1 until June 1, 1932. They are C. A. Murray, of the mathematics department, and Hattie M. Anderson of the history department. Miss Anderson plans to use the time in working toward a Ph. D. degree.

Ruth Cross, head of the women's physical education department, and Carl York, of the training school faculty, have both been granted leaves which will become effective September 1, and end June 1.

W. T. CATALOGUES TO BE USED AS SOURCE BOOK

A request has come recently to President Hill to have a copy of W. T.'s latest yearbook or catalogue sent to the Education Library, at the Ohio State University. The request was made as a result of the desire of that institution to use this publication as a source in a course to be given by a visiting professor in the department of School Administration during the summer quarter, according to Loa Evelyn Bailey, of the Ohio Education Library.

Faculty Award for 1931 Is Given to Mrs. B. M. Kennedy

The faculty scholarship of the West Texas State Teachers College for 1931 has been awarded to Mrs. Brice M. Kennedy of Clarendon, Texas, according to announcement by college authorities.

Mrs. Kennedy made eighteen A's during the regular session just ended. This means that she took six subjects each quarter, and made an A in every subject she took during the whole year.

Mrs. Kennedy's average is the highest of any student in the college this year, and is as high as any average ever made by a student in the West Texas State Teachers College.

The scholarship carries with it an award of $100.

W. T. Represented At Hollister By Day and Wiegman

Grace Wiegman and Jean Day are representing the local Young Women's Christian Association at the summer conference for the Y. W. C. A. and Y. M. C. A. which is being held this week at Hollister, Missouri. This annual conference is being attended by representatives from colleges in five states: Louisiana, Texas, Arkansas, Missouri, and Oklahoma.

Miss Day, who is a junior coming to W. T. from Plainview, will serve the local organization as president during the coming year. Miss Wiegman, a senior from Claude, is the choice of the group for secretary.

—why warm weather should add to the discomfort of housekeeping. Electricity, if given the opportunity, will make the performance of the daily tasks quite as easy and as comfortable as in the winter time.

Noiseless electric fans will keep the air circulating and create cool breezes.

put your Telephone on Half-pay *during* Vacation

"Something should be done about this"

The Rumseys are going vacationing.

Vacation rates for idle residence telephones

One solution (provided you're planning a vacation of 30 days or more) is to place your telephone on vacation half-rates while you are away.

It's a convenient way to save money. And—this to folks who sometimes have their telephones taken out—it spares you inconvenience on your return.

That's because:

1. You pay just *half* the regular rate.
2. Service is reconnected quickly after you return—usually within 24 hours after you notify us.
3. You keep your present telephone number. (You'd lose it if you had your telephone removed!)
4. Your name remains in the telephone book.

If you wish, while you are away we will refer your calls to another telephone—that of relatives, for instance.

Vacation rates are available for periods of more than 30 days. They apply only to residence telephones — not to business or rural service.

To obtain them, mail the coupon below, or telephone the business office.

Hilda Miller and Joe Hill, Jr., Win H. S. Scholarships

Scholarships given by the West Texas State Teachers College every year to the boy and girl of the W. T. Demonstration High School having the highest scholastic standing in their senior work at graduation were won this year by Hilda Miller and Joe Hill, Jr., both of Canyon.

Due to an unbreakable tie in the senior records of Miss Miller and Pollyanna Pitts, it was necessary to adopt a ruling which says that in the case of such a tie the records of the two tying will be considered back as far as the two have been in school together. Doing this this year, Mrs. Tommie S. Montfort says, it was found that Miss Miller's record averaged a little higher than that of Miss Pitts. The two had been in school together here since the beginning of their junior year.

The boys' scholarship was awarded on the merits of the unusually good record of Joe Hill, which was reached by no other boy in the class.

Having received the highest record of any student in the class, Hilda Miller was valedictorian at the commencement exercises, May 29th.

According to the W. T. high school authorities, Miss Miller is a most extraordinary student, having done eleven years school work in ten years, making a very high record throughout, all A's this last year. She holds two district medals in Interscholastic League declamation, and one state medal in essay writing. This medal entitles her to a one-year scholarship in the University of Texas. She is secretary of the R. P. Jarrett Chapter of the National Honor Society for Secondary Schools.

Joe Hill is the son of President and Mrs. J. A. Hill of W. T. He is also a member of the local chapter of the National Honorary Society.

Bucket of Honey From A. B. Mayhew Is Sent to Pres. Hill

Last week there came to President Hill's office a "sweet token of friendship from The Land of Honey," (Uvalde County, Texas) in the form of a bucket of comb honey sent by A. B. Mayhew, president of the board of teacher's college regents.

The bucket, tightly sealed, was sent unwrapped through the mails, the address being attached only to the wire handle. It contains honey made by W. O. Victor Honey Co., at Uvalde, who has been making honey since 1883 in that part of the country.

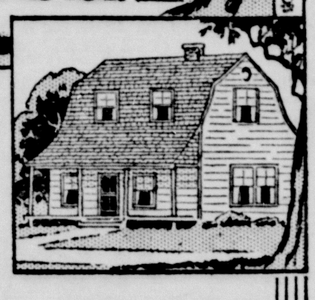
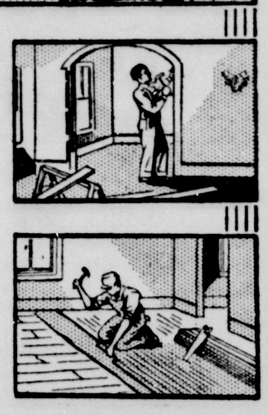
LET Your HOME Be YOUNG Again





Here you see what can be done with a seemingly hopeless old house. First, a smart Colonial siding has been added, and painted white. Colonial pillars have been substituted for the ugly spindles. Attractive shutters have been introduced. A garage has been built on as a wing.

Surprisingly, all these improvements, and others in the interior, such as the arching of a square entrance, and the new wood floor, are all very inexpensive. Let us furnish you with modern plans and estimates.

Everything for your Building Needs

Speaking of coming back to Canyon, Preacher C. E. (chicken eater) Jameson, remarked, "Oh well, it's all right, you can come on back, we're not so particular anyway." That's right, preacher, that's right, so I've noticed. You have been here longer thanI at that.

While I'm on the subject of preachers, might as well tell this one. In Floydada I met a golfing preacher. The story is told on him that when he makes a back stroke he never cusses, but instead he spits on the ground and no vegetation grows on that spot any more.

I'm still not publishing Mickles' golf score. But Doc Brown is proud of his last round Sunday afternoon. It was nothing more or less than 36 on the last nine holes. He won his match.

Conversing about his golf game last Sunday, Grady Oldham says he won his match, but by only one reason. The opponent was just a bit worse than he was.

It is not often that I want to tear into anyone and call them down in public, but here's one time I feel like it orter be done. And another thing I dislike to tear into any other member of the newspaper game because they get cussin's enough from the outside and especially would I dislike to take a crack at a man so popular as Old Tack, but he's clear wrong.

He made this statement last week: "The Tacks are surely lapping up the strawberries these days and I surely mean just this. We are having them three times a day and I eat a big pie plate of them, all heaped over with canned cream and corn sugar."

What do you think of that? Mr. Tack is doing a fine thing for the strawberry farmers of South Texas and Louisinana, but what about the dairymen of this section. He's setting a fine example! It is well and good to help everyone that he can and that goes for everyone else, but when it comes to helping the farmer on one side and the northern canned cream company on the other I say he's all wrong. He ought to pour good Panhandle cream over those strawberries and go after them. A lot of home grown cream and milk would prepare him for the springtime each year when he needs poke salad and sometimes can't get it.

He means well and no doubt didn't think, but I'm in favor of hi buying his milk fresh from the cow hereafter.

As many a story has oft begun,
Once there was a man named Moff,
And he had lots of money to burn,
Now he's broke and out playing golf.

Helen White Moore Will Tour Europe During Summer

Helen White Moore, critic teacher in the W. T. demonstration school, left recently for Montreal, from whence she will sail June 19 for a tour of Europe.

At the present time, Miss Moore is visiting with an old school friend at Portland, New York, who is to accompany her on the European tour. While in New York, Miss Moore will visit Niagra Falls.

On the nineteenth Miss Moore, together with a party of four others will sail from Montreal on the Canadian-Pacific lines for Glasgow, Scotland. From Glasgow the party will travel by private car through England. After their tour of England the party will cross to the continent, visiting the countries Holland, France, Germany, Switzerland, Italy and Austria.

Miss Moore will return early in September and will be ready to assume her work in the English department of the training school this fall.

Quite a number of people met at the schoolhouse Sunday afternoon to attend Sunday school and preaching. Rev. C. G. Howard, pastor of the First Baptist Church of Canyon, is in charge of a seven days' revival meeting here. It is hoped that all the people of this community and as many as can from nearby communities will avail themselves of this opportunity of serving Christ by attending and helping out with the services. You CAN Drive a Nail With a Hairbrush . . . . but

MAKESHIFT METHODS can PRODUCE only Makeshift Results---

Why exhaust muscles and patience with such an obviously "half-way" method, when the balenced weight of a hammer will sink the nail with far less effort? For while a hairbrush will drive the nail, the hammer will do the job with a minimum amount of energy.

Unquestionably, you can get your office work done with makeshift equipment, but the expenditure of time and effort will cost you more than modern equipment.

When it comes to letter writing, consider not only how much quicker it can be done on a Royal Typewriter, but how much more effective the appearance of the finished letter is. Your letters are your representatives in another man's office. It pays to have your representatives look well, including your letters.

Let us give you a demonstration on the performance of a Royal Typewriter.

Perhaps you will need other labor-saving equipment, such as a filing cabinet, or numbering machines. We shall be glad to show you.
